### ***Black History Month***

- Today's Black Brilliance information is about Dr. Alexandra Bastiany, who is a cardiologist, meaning she specialises in being a doctor of the heart. She works at Thunder Bay Regional Health Centre. She was the first Black female Canadian to be an interventional cardiologist. She speaks three languages and was born in Montreal. She has won many awards and is a role model for many Black girls and women. This has been our final Black Brilliance announcement. Thank you for learning with us this month.

### ***Spaghetti Dinner Fundraiser***

- The Spaghetti Dinner fundraiser took place last Thursday at the Port Perry Community Centre. We served almost 400 people. We had many of our students from PPHS volunteer who were past students of Prince Albert. Some students had no affiliation to our school but were still willing to donate their time. The organisers wanted to express their sincere gratitude to the students, who showed up to help. They were all polite, helpful and a real pleasure to meet.

### ***Music***

- Girls Ensemble rehearses today after school at the regular time. The first hour will be self-directed. Mrs. Thompson will be joining us at 3pm.
